Five Star San-A-Safe™

Environmental Solutions

Description

- The “all-Natural” sanitizing solution based on Phytology Technology.
- Results in only 60 seconds of contact time.
- A powerful cleaning, deodorizing and sanitizing performance.
- Approved as a non-food sanitizer for non-porous, hard surfaces.
- Rapidly kills a broad spectrum of gram-positive and gram-negative bacteria.
- Strong residual effect – continues to work for days after application.
- Not affected by presence of organic material.
- Safe on all surfaces and equipment.
- Bio-based, all-natural and biodegradable.
- EPA Registered 81857-1.

Technology Profile

Phytology is a revolutionary technology that relies on using bioflavonoids and plant extracts that create a synergistic reaction and, when combined, produce extremely powerful cleaning agents. Until recently, hazardous cleaning chemicals were considered to be the answer to cleaning and sanitation problems. Phytology Technology has been incorporated into state-of-the-art products that naturally eliminate harmful bacteria.

Advantages

Until recently, hazardous cleaning agents were considered to be the answer to cleaning and sanitation problems.

Unlike the conventional sanitizers, San-A-Safe™ is not affected by organic material and has excellent stability. San-A-Safe™ is a contact sanitizer that breaks down the biofilm of bacteria allowing the active ingredients to penetrate the cell wall of the pathogen thereby killing the cell. Most other sanitizers to kill the cell by toxic poisoning which leaves residues on surfaces that must be rinsed thereby negating the ongoing efficacy of these products.

San-A-Safe™ works hours after chlorine-based product loose their effectiveness. Unlike conventional sanitizers, bacteria cannot build-up a resistance through mutation due to the unique method in which it kills.

San-A-Safe™ is an all-natural, bio-based hard surface sanitizer. It is non-toxic, odorless and colorless.

Applications

Spray/Fog Application:

Turn nozzle on and spray. Spray soiled surface until completely covered. Let stand 1 minute. Wipe with damp cloth.

Liquid Applications:

Apply onto surface. Let stand 1 minute. Wipe with cloth for a shiny, clean surface. For highly soiled areas, repeat procedure.
